

GENERAL PURPOSE FLOW CONTROLLERS

General,

The paddle type WFS series flow controllers are specifically designed for use on liquid lines such as water, ethylene glycol or any other fluid which is not harmful to brass, ss or phosphor bronze and which is not classified as a hazardous fluid.

When a WFS series flow controllers is used as an operating control device and where an operating control device failure would result in personal injury and/or loss of property, it is the responsibility of the user to add safety devices that protect against control device failure.

Mounting.

The flow controller can be mounted in a horizontal or vertical pipeline but must be located in a section of pipe where there is a straight run of atleast 5 pipe diameters on each side of the switch.

SPECIFICATIONS

Model Number	WFS-25P / 25S / 25T / 19S / 19T / 12S / 12T
Pipe Connection	1" MPT / 1" BSP / 3/4" BSP / 3/4" NPT / 1/2" BSP / 1/2" NPT
Materials	Brass / Stainless Steel - 304 / Engg. Plastic
	Phosphor Bronze
	Mild Steel
	Neoprene
Maximum Operating Pressure	10 bar (150 Psi)
Liquid Temperature	1 to 100° C
Setpoint Adjustment	Screw under cover.
Ambient Temperature Limits	0 to 60° C
Flow rates	See chart overleaf. Flow Rates m ³ /h, US GPM & LPM
Bellow life	5,00,000 cycles
Switch Action	SPDT, Snap-acting.
Electrical Ratings	Upto 250VAC, 15(7.5) A, 50/60 Hz
Wire Connections	Screw-down Terminals
Paddles	Supplied in 5-piece package in sizes of 1", 2", 3", 5" and 6"
Enclosure Protection Class	I.P 55
Conduit Opening	22 mm diameter hole for 1/2" Conduit.
Dimensions	See overleaf. Dimension in mm.
Shipping Weight	0.7 kgs.

The specifications above are normal and confirm to generally acceptable industry standards. Castle is not responsible for damages resulting from misapplication or misuse of its products.

* Use or trim standard paddle size.

Flow Rates, m³/h, US GPM & LPM

Operating Instructions

Setting Adjustment.

1. Remove flow controller cover.
2. For higher flow rate, turn range adjusting screw clockwise.
3. For lower flow rate, turn range adjusting screw counter-clockwise.
4. Be sure that flow controller cover is replaced before leaving jobsite.
